Experience

Ring — *UX Design Intern*, Fall 2017

Designed a new setup flow for the Ring app, working to reduce support tickets while increasing completion rates. Conducted usability testing to help guide the redesign process.

Restocks — *Product Design Intern*, Summer 2017

Led a complete redesign of restocks.io, from concept to wireframing and visual design. Rebuilt marketplace flows for both buyers and sellers within the Restocks app.

Freelance Designer — Summer 2015 to Present

Designed websites and brand identities for a variety of early-stage startups in San Francisco and Los Angeles.

LA Hacks — *Director of Sponsorship*, Spring 2015

Organized day of operations at what was the nation's largest collegiate hackathon, served as a liaison between sponsors and the core team, managed teams of volunteers.

Selected Projects

Cousteau

Designed and built a Chrome extension to help people learn new foreign languages while browsing the web. Part of UCLA's Anderson Venture Accelerator (Winter 2016).

Festival Supply

Designed and built a website that curates and consolidates music festival lineups to help festivalgoers find the perfect event.

Education

University of California, Los Angeles

B.S. in Cognitive Science (December 2017)

Coursework in Research Design, Computer Science, Neural Networks, Mandarin Chinese

Affiliations

Sigma Eta Pi Entrepreneurship Fraternity

Mentored student entrepreneurs, led a complete overhaul of the group's organizational structure, coordinated recruitment events for hundreds of attendees.
