Experience

Ursa Apparel (Fall 2015, Fall 2016)

Co-founder of a company that designed and produced UCLA / USC rivalry apparel, grossing over $6000 in two weeks of sale.

LA Hacks (Spring 2015)

Organized day of operations at what was the nation's largest collegiate hackathon, served as a liason between sponsors and the core team, managed teams of volunteers.

Social Chorus (Summer 2013)

Designed slide decks for pitches to Fortune 100 companies, led research study on social media use through development and data collection, worked with event coordinators to bring content creators to major events.

Selected Projects

Cousteau

Designed and built a Chrome extension to help people learn languages while browsing the web. Currently in the UCLA Anderson School Accelerator.

Simple Questions Search

Designed and built a search engine to make reddit comments searchable in the reddit subcommunity named /r/malefashionadvice.

Organizations

Sigma Eta Pi (Fall 2014 —)

Spearheaded a complete overhaul of chapter bylaws, introduced a new organizational structure, coordinated recruitment events with over 130 unique attendees.
